Subject: Collected presentations for CASQA panels on SW Improvement Workshops
Attachments: 101718_4_Muni SW Program-Permit Evolution_Smith.pptx; ATT00001.htm; 101718_5_MS4 Monitoring Evaluation Tracking Reporting_Minton.pptx; ATT00002.htm; 101718_5_MS4 Monitoring Evaluation Tracking Reporting_Roques.pptx; ATT00003.htm; 101718_4_Muni SW Program-Permit Evolution_Kleis.pptx; ATT00004.htm

Gents- Thanks for your great preparation for the two panels we'll be doing on the Oakland workshops we did last year and earlier this year. Attached are all the presentations I received to date plus one I just wrote for my bit in panel 1. I changed the titles to fit the CASQA nomenclature.

Dominic, I modified the terminology slide on your ppt to incorporate the revised terms as defined in the final report. I also added in a follow up slide the graphic of the conceptual framework that emerged from our discussions. I also added a graphic showing the mix of interests/organizations represented. I also added an example of one of the survey results and an example of the recommendation summary as I did in my intro talk for panel 1. I may or may not use those, but I thought you might want the option in case there are more specific questions about these things. Hope that's OK.

I understand Tom is preparing something for his Panel 1 talk and I will ask Tom to share with each of us when he is done. I hope to see that ppt today. pls remember to put it in widescreen 16:9 ratio.

My plan is to provide all of our ppts at one time to Amy Porter at the meeting on Monday so she can have them ready to go. This means you have one last shot to modify them if you wish before I turn them in. By Sunday night, please.

I will be arriving in Riverside tomorrow mid-day. I may stop by a get together one of the consultants is having, but otherwise I will be available. (Actually, I need to do a ton of work to finish my edits to the stormwater finance training course based on the good feedback we got from a bunch of reviewers around the country). But I would be up to get together if folks would like on Sunday. Many of you I know I will see on Monday evening.

Please let me know if you think we should gather before Wednesday for last minute coordination. Perhaps Late Tuesday PM?

Many thanks to all
Dave
